AIB-AXYS November 2025 Stock Recommendations

October 2025 Highlights

- **Energy sector full year earnings - Kenya Power and Lighting Company (KPLC) and Kenya Electricity Generating Company (KenGen) announced their full-year results for the year ending June 2025**. KPLC reported a dip in profit after tax to KES 24.47 Bn from KES 30.01 Bn in 2024. The decline in net earnings was driven by an KES 11.84 Bn drop in revenue, attributed to a lower base tariff and reduced foreign exchange recoveries, rather than a decline in actual sales. Interestingly, sales increased by 887 GWh, supported by higher customer uptake amid rising electricity demand in the country. We believe KPLC is on a solid trajectory, supported by strong electricity demand, improving working capital, and enhanced efficiency, which should sustain long-term profitability. A key highlight for KPLC was the dividend payments, with a total payout of KES 1.0 per share (an interim dividend of KES 0.2 and a final dividend of KES 0.8).

  KenGen reported improved net earnings of KES 10.46 Bn from KES 6.79 Bn in 2024. This performance was supported by a reduction in operating expenses to KES 35.13 Bn from KES 39.32 Bn, forex gains of KES 1.45 Bn, and lower finance costs. Revenue remained relatively flat, with the company citing lower geothermal and steam revenues; however, this was partly offset by higher pass-through recoveries and diversified income streams. The improved financial performance was painted in increased dividends to shareholders, as the Board approved a first and final dividend of KES 0.9 per share, up from KES 0.65, payable on or before 12th February 2026 to shareholders on record as of 27th November 2025.

- **East African Breweries PLC – announced the early redemption of its KES 11.00 Bn Medium-Term Notes. According to the notice, the redemption took effect on 29th October 2025.** On the early redemption date, the redemption amount is to be disbursed to persons registered as noteholders in the register maintained by the Central Depository and Settlement Corporation as of 14th October 2025. Following the early redemption, the Notes will be delisted from the Fixed Income Securities Market Segment of the Nairobi Securities Exchange, marking the conclusion of the MTN Programme.

  Following the early retirement of its MTN notes, East African Breweries PLC announced plans to return to the market with a KES 20.0 Bn program, aiming to raise KES 11.00 Bn under the first tranche. The program carries a tenor of five years and an interest rate of 11.8% *(slightly higher than government bonds of a similar tenor in the secondary market).*

- **What November Holds – Q3 Banking Sector Earnings Season – In November, we expect Q3 earnings from listed banks to start trickling in**. Earnings growth is likely to take shape, building on the interim results, supported by a gradual uptick in private sector credit. We also recognize that banks are leveraging the accommodative monetary environment to manage funding costs, which should support margins, a trend we expect to materialize in the upcoming results.

Table 1: Summary of Latest Net Earnings Results

	Company	Comment
1.	**ABSA Bank**	Q2'25 posted a 9.1% y/y rise in net earnings to KES 11.68Bn, supported by lower loan loss provisions (-37.9%) and reduced operating costs (-11.5%). Net interest income dipped 2.9% while non-interest income grew 3.3%, leaving total operating income slightly down (-1.2%). The loan book contracted 3.6%, though deposits rose 2.3%, underscoring balance sheet resilience despite muted credit growth
2.	**Co-operative Bank**	Q2'25 results reported an 8.4% y/y rise in net profit to KES 14.08Bn, supported by strong net interest income growth of 23.1% y/y. Operating income rose 10.6% despite an 8.2% dip in non-interest revenue. Costs increased 13.0% and provisions surged 50.5%, reflecting prudent risk management. Lending grew 4.2%, deposits 7.9%, with liquidity remaining solid.
3.	**Diamond Trust Bank**	Q2'25 net earnings rose 9.7% y/y to KES 5.37Bn, supported by an 11.8% y/y increase in net interest income to KES 15.86Bn, driven by a 7.7% expansion in the loan book. However, growth was offset by a 5.0% y/y decline in non-funded income on weaker FX trading, partly cushioned by higher fees and commissions. Operating costs rose modestly, while provisions fell 10.5%, underpinning overall earnings resilience.
4.	**E.A Breweries Limited**	Net earnings rose 20.0% y/y to KES 8.1Bn, supported by an 11.0% uptick in EBIT to KES 15.6Bn, driven by improved cost control and a FX gain of KES 1.2Bn compared to a loss of KES 2.3Bn in H1'24. Gross profit, however, slipped 5.0% y/y to KES 28.1Bn on higher input costs, while expenses increased 4.0% y/y. EPS improved 11.0% y/y to KES 7.65, reflecting resilient profitability despite margin pressures. The Board of Directors recommended an interim dividend of KES 2.50 per share.
5.	**E.A Portland Cement**	Net earnings improved to a profit of KES 35.1Mn from a loss of KES 720.7Mn. This return to profitability was anchored on improving sales volume driven by strategic pricing. Additionally, improved plant utilization helped minimize operational costs, improving retained earnings in the period.
6.	**Equity Group**	Q3'25 posted a 32.2% y/y rise in PAT to KES 54.1Bn, driven by a 16.1% increase in net interest income and sustained cost discipline. This offset modest growth in non-interest income (+2.5%), delivering strong operating leverage. Regional subsidiaries remained key profit drivers, contributing over 40% of Group PAT, with continued momentum in DRC, Uganda, and Tanzania. Loans expanded 7.5% y/y versus deposits up 2.2%, pushing the loan-to-deposit ratio to 63.9%, reflecting a more active lending stance and reinforcing the Group's balance sheet resilience and profitability.
7.	**I&M Group**	Group net earnings rose by 36.3% y/y to KES 8.31Bn, supported by a 23.7% y/y jump in net interest income. Non-interest income grew by 12.9% y/y, largely driven by fees and commissions, offsetting a dip in forex trading income. The loan book expanded modestly (+2.1% y/y), with growth mainly from customer lending. Credit impairment charges rose 17.4% y/y, reflecting higher provisioning, but the strong topline growth supported the bottom line
8.	**Kapchorua Tea**	Net earnings plunged by 54.6% y/y to KES 181.18Mn from KES 399.36Mn. The decline was driven by persistent oversupply in the global tea market, which continued to suppress demand and prices.
9.	**KCB Group**	Net earnings rose 8.1% y/y to KES 32.33Bn, lifted by higher net interest income of KES 69.14Bn, despite an 11.3% dip in non-interest income. The loan book expanded 6.1% y/y, while deposits were flat (–0.3% y/y), pointing to funding pressures. EPS improved 8.0% to KES 19.61, while the share price rallied ~73% y/y, reflecting strong investor confidence
10.	**KPLC**	KPLC maintained its recovery trajectory into FY'25, supported by improved operational efficiency and disciplined cost management. Net earnings came in at KES 24.47Bn, a slight moderation from the record highs in FY'24 but still a strong underlying performance. The Board declared a total dividend of KES 1.00 per share comprising an interim payout of KES 0.20 and a proposed final dividend of KES 0.80.

Table 1: Summary of Latest Net Earnings Results

	Company	Comment
11.	**NCBA Group**	H1'25 net profit rose 12.6% y/y to KES 11.04Bn, supported by a 26.7% jump in net interest income to KES 20.84Bn. However, performance was weighed by balance sheet contraction, with assets (3.8% y/y), loans (7.0% y/y), and deposits (6.0% y/y) all declining. EPS grew 12.6% y/y to KES 6.71, while the interim dividend was raised 11.1% y/y to KES 2.50, reflecting sustained shareholder returns.
12.	**Safaricom**	Safaricom Group delivered a solid HY26 performance, with net income surging 52.1% y/y to KES 42.80Bn, driven by a 11.1% rise in service revenue to KES 199.92Bn and robust EBITDA growth of 34.9% to KES 101.31Bn. EBIT rose 54.5% to KES 65.22Bn, signaling improved efficiency and cost optimization, while the customer base expanded 19.7% to 63.20Mn. Despite higher Capex (+72.1%), the Group maintained healthy liquidity and operational momentum, underscoring strong execution across key business segments
13.	**Stanbic Bank**	H1'25 Net earnings plunged by 9.2% y/y to KES 6.54 Bn weighed down by a 5.8% drop in net interest income to KES 11.83Bn as loans and advances contracted 14.6% y/y. Margins were, however, supported by a modest 0.9% growth in non-funded income to KES 7.62Bn. Notably, total operating expenses surged by 15.4%y/y gnawing into the margins. The Board of Directors recommended an interim dividend of KES 3.80 per share.
14.	**Standard Chartered Bank Kenya**	H1'25 PAT declined 21.3% y/y to KES 8.09Bn, on the back of softer income streams amid calmer currency markets. Operating income fell 15.3% y/y to KES 22.10Bn, weighed by a 7.4% dip in net interest income and a sharper 29.0% drop in non-interest income, with forex trading income down to KES 1.99Bn from KES 4.92Bn. Earnings were weighed by muted trading gains on a stable shilling.
15.	**Williamson Tea**	Net earnings declined to a loss of KES 166.44Mn from a profit of KES 529.95Mn. The business recorded a KES 392.22Mn loss from operations before tax which we believe was underpinned by oversupply in the global tea market, which pressured prices and demand.
16.	**Liberty Kenya Holdings**	H1'25 net earnings fell 58.9% y/y to KES 260Mn, down from KES 632Mn in H1'24, weighed by a weaker insurance service result (KES 225Mn vs. KES 577Mn) and higher net insurance finance expenses (–11.8% y/y to KES 1.25Bn). Investment income rose modestly 4.6% y/y to KES 2.08Bn, but was insufficient to offset muted insurance operations. EPS declined to KES 0.43 from 1.16, reflecting sustained earnings pressure.
17.	**CIC Insurance**	Net earnings declined 10.1% y/y to KES 638.5Mn, from KES 710.0Mn in H1'24. Performance was weighed down by weaker insurance service result, which dropped to KES 128.2Mn from KES 1.05Bn, reflecting higher service expenses. However, revenue momentum was partly supported by a 53.7% y/y rise in investment return to KES 2.75Bn, cushioning the bottom line. EPS stood at KES 0.23 from 0.30 in H1'24.
18.	**Jubilee Insurance**	H1'25 net profit rose 21.7% y/y to KES 3.06Bn, supported by stronger insurance finance income (+76.1% y/y) and a 15.0% y/y uplift in the insurance services result. While other income dipped 35.3% y/y, overall profitability remained firm, aided by disciplined cost management. EPS improved 20.3% y/y to KES 41.63, highlighting sustained earnings resilience and operational strength.

October 2025 Equities Market Highlights

- On a monthly perspective, market indices registered bullish sentiments with the **Nairobi All Share Index** rising by **6.5% m/m**, NSE-20 rising **4.8% m/m,** and NSE-10 rising **7.1% m/m**.

- **Equities market turnover declined by 50.4% m/m to KES 11.27 Bn in October 2025 from KES 22.70 Bn in September 2025. On a yearly perspective, turnover expanded by 128.1% from KES 4.94 Bn**. In October, the market started off slowly, coinciding with fund managers' quarterly reporting period, which impacted trading activity. After the sluggish start in the first two weeks, the market gained momentum in week three, with key indices closing higher on consecutive sessions. Foreign investor activity remained subdued over the month. So far in November 2025, the bull run appears to have enough momentum to carry into 2026 and finish the final stretch of 2025 strongly. In our view, a mix of earnings growth (currently being priced into the market) and an easing monetary cycle is likely to fuel the rally through year-end.
