AIB-AXYS December 2025 Stock Recommendations

November 2025 Highlights

- **Banking Sector Q3 Earnings Season - In November, listed banks released their Q3 results. Broadly, most banks reported double digit earnings growth, save for Stanbic Holdings and Standard Chartered Bank Kenya, both of which recorded declines in net earnings**. (Stanchart had already issued a profit warning, so the decline was largely expected based on the earnings trend at the onset of FY 2025.) Despite weaker earnings, both counters offer healthy dividend propositions soothing investors; which has helped prevent any significant correction in their share prices.

  Equity Group stole the show with the strongest earnings growth among Tier I banks at 32.2% y/y, supported by solid growth in revenues - in both funded and non-funded income streams. As expected, most lenders took advantage of MPC's dovish stance to manage their cost of funds, keeping interest expenses relatively low and helping sustain margins. A key highlight this season was Co-op Bank's first interim dividend of KES 1.0 per share. With this announcement, we expect a final dividend of KES 1.0, bringing the total dividend to KES 2.0 from KES 1.5 in FY 2024.
- **Safaricom Green Bond Notes – Safaricom announced plans to raise KES 40.0 Bn through Medium Term Notes to diversify its funding sources, strengthen financial flexibility, and support long term investments.** The company targeted KES 15.0 Bn in the first tranche of the program with a greenshoe option of KES 5.0 Bn in the event of oversubscription. Proceeds are expected to support projects aligned with government priorities such as energy efficiency and sustainable buildings. The notes carry a 5 year tenor, a 10.4% coupon rate, and are tax exempt due to their sustainability classification, similar to infrastructure bonds. This provided investors with a compelling opportunity with yield surpassing alternative government bonds when considering the tax advantage of these green notes. The issuance attracted bids worth KES 41.4 Bn, representing a 275.7% performance rate and triggering the KES 5.0 Bn greenshoe, bringing total accepted bids to KES 20.0 Bn. The strong demand signals investor confidence in Safaricom's long term prospects. The issuance followed shortly after EABL completed its oversubscribed capital raising. The prevailing interest rate environment continues to offer corporates an attractive window to tap capital markets at relatively lower cost.
- **Intention by Kalahari Cement to Acquire Shares in EAPC– Kalahari Cement announced its intention to acquire 24.30 Mn shares in East African Portland Cement (EAPC) from the National Social Security Fund (NSSF).** The transaction, is valued at KES 66.0 per share taking the total transaction cost at KES 1.60 Bn, this subsequently will give Kalahari effective control of EAPC. This 27.0% stake will raise Kalahari's total ownership to 56.2%. Key to note, the Kalahari stated that it has no intention of making a take over offer for EAPC.
- **Monetary Policy Decision – In its final meeting of the year held on 9th December 2025, the Monetary Policy Committee lowered the Central Bank Rate by 25 bps to 9.00%, in line with our expectations.** The decision was guided by the need to stimulate the economy and support private sector lending. Key highlights from the meeting included: i) Gross non performing loans in the banking sector eased to 16.5% in November from 17.6% in August, and, ii) Private sector credit growth improved to 6.3% in November 2025, up from a 2.9% contraction in January. Looking ahead, inflation is expected to remain anchored in the near term.

Table 1: Summary of Latest Net Earnings Results

	Company	Comment
1.	**ABSA Bank**	Q3'25 posted a 15.1% y/y rise in PAT to KES 16.92Bn, supported by sharply lower impairments, cost discipline, and stronger non-interest income. NII softened on reduced loan margins and a smaller loan book, though increased allocation to government securities cushioned performance. Asset quality improved with the NPL ratio easing to 12.6%, while a resilient funding base and diversified fee income helped sustain earnings momentum.
2.	**Co-operative Bank**	Q3'25 posted a 12.3% y/y rise in net earnings to KES 21.56Bn, supported by strong NII growth (+22.8% y/y) driven by an expanding loan book and lower interest expenses. Provisions eased 31.9% y/y, lifting profitability, while the bank declared its first-ever interim dividend of KES 1.0, signaling strengthened shareholder value creation.
3.	**Diamond Trust Bank**	Q3'25 posted a 12.3% y/y rise in PAT to KES 8.36Bn, supported by strong NII growth (+17.9% y/y) and a 7.8% expansion in the loan book. Non-funded income fell 5.9% y/y on softer FX and lower fees, though transactional flows remained resilient. Operating income rose 10.5% y/y, with cost discipline maintained despite higher provisions as NPLs edged up. A solid funding base, reflected in 15.5% y/y growth in deposits, and strengthened capital buffers underpinned balance sheet resilience.
4.	**E.A Breweries Limited**	Net earnings rose 20.0% y/y to KES 8.1Bn, supported by an 11.0% uptick in EBIT to KES 15.6Bn, driven by improved cost control and a FX gain of KES 1.2Bn compared to a loss of KES 2.3Bn in H1'24. Gross profit, however, slipped 5.0% y/y to KES 28.1Bn on higher input costs, while expenses increased 4.0% y/y. EPS improved 11.0% y/y to KES 7.65, reflecting resilient profitability despite margin pressures. The Board of Directors recommended an interim dividend of KES 2.50 per share.
5.	**E.A Portland Cement**	Net earnings improved to a profit of KES 35.1Mn from a loss of KES 720.7Mn. This return to profitability was anchored on improving sales volume driven by strategic pricing. Additionally, improved plant utilization helped minimize operational costs, improving retained earnings in the period.
6.	**Equity Group**	Q3'25 posted a 32.2% y/y rise in PAT to KES 54.1Bn, driven by a 16.1% increase in net interest income and sustained cost discipline. This offset modest growth in non-interest income (+2.5%), delivering strong operating leverage. Regional subsidiaries remained key profit drivers, contributing over 40% of Group PAT, with continued momentum in DRC, Uganda, and Tanzania. Loans expanded 7.5% y/y versus deposits up 2.2%, pushing the loan-to-deposit ratio to 63.9%, reflecting a more active lending stance and reinforcing the Group's balance sheet resilience and profitability.
7.	**I&M Group**	Q3'25 results reflected solid balance sheet growth, resilient earnings, and strengthened capital and liquidity buffers. Loan book expansion and steady deposit growth supported funding stability, while asset quality remained stable with improved provision coverage. Earnings momentum was reinforced by diversified income streams and continued positive contribution from regional subsidiaries
8.	**Kapchorua Tea**	Net earnings plunged by 54.6% y/y to KES 181.18Mn from KES 399.36Mn. The decline was driven by persistent oversupply in the global tea market, which continued to suppress demand and prices.
9.	**KCB Group**	PAT in Q3'2025 rose 3.4% y/y to KES 47.32Bn, supported by 12.4% growth in NII as funding costs eased. The loan book expanded 8.2% y/y, while non-funded income remained soft on weaker FX trading. NPLs rose to KES 222.07Bn, though stronger provisioning improved coverage. Overall performance was anchored by subsidiary resilience and a gradually recovering credit environment.
10.	**KPLC**	KPLC maintained its recovery trajectory into FY'25, supported by improved operational efficiency and disciplined cost management. Net earnings came in at KES 24.47Bn, a slight moderation from the record highs in FY'24 but still a strong underlying performance. The Board declared a total dividend of KES 1.00 per share comprising an interim payout of KES 0.20 and a proposed final dividend of KES 0.80.

Table 1: Summary of Latest Net Earnings Results

	Company	Comment
11.	**NCBA Group**	Net earnings grew 8.5% y/y to KES 16.38Bn in Q3'25, supported by strong NII growth (+27.4% y/y) as funding costs fell sharply in a softer rate environment. Loan and deposit contraction weighed on interest income, but asset quality improved, with gross NPLs down 6.0% y/y. Non-funded income was broadly stable, supported by solid digital lending fees despite weaker FX trading.
12.	**Safaricom**	Safaricom Group delivered a solid HY26 performance, with net income surging 52.1% y/y to KES 42.80Bn, driven by a 11.1% rise in service revenue to KES 199.92Bn and robust EBITDA growth of 34.9% to KES 101.31Bn. EBIT rose 54.5% to KES 65.22Bn, reflecting improved efficiency and cost optimization, while the customer base expanded 19.7% to 63.20Mn. Despite higher Capex (+72.1%), the Group maintained healthy liquidity and operational momentum, underscoring strong execution across key business segments
13.	**Stanbic Bank**	H1'25 Net earnings plunged by 9.2% y/y to KES 6.54 Bn weighed down by a 5.8% drop in net interest income to KES 11.83Bn as loans and advances contracted 14.6% y/y. Margins were, however, supported by a modest 0.9% growth in non-funded income to KES 7.62Bn. Notably, total operating expenses surged by 15.4%y/y gnawing into the margins. The Board of Directors recommended an interim dividend of KES 3.80 per share.
14.	**Standard Chartered Bank Kenya**	Q3'25 PAT fell 38.2% y/y to KES 9.79Bn, driven by softer revenues and a one-off KES 2.7Bn staff cost charge following a Supreme Court ruling. Core banking activity slowed amid weaker loan demand and reduced transaction volumes, while non-funded income was hit by a sharp drop in FX trading due to a stable shilling. On the positive side, asset quality improved, with gross NPLs easing to KES 9.13Bn and provisions declining.
15.	**Williamson Tea**	Net earnings declined to a loss of KES 166.44Mn from a profit of KES 529.95Mn. The business recorded a KES 392.22Mn loss from operations before tax which we believe was underpinned by oversupply in the global tea market, which pressured prices and demand.
16.	**Liberty Kenya Holdings**	H1'25 net earnings fell 58.9% y/y to KES 260Mn, down from KES 632Mn in H1'24, weighed by a weaker insurance service result (KES 225Mn vs. KES 577Mn) and higher net insurance finance expenses (–11.8% y/y to KES 1.25Bn). Investment income rose modestly 4.6% y/y to KES 2.08Bn, but was insufficient to offset muted insurance operations. EPS declined to KES 0.43 from 1.16, reflecting sustained earnings pressure.
17.	**CIC Insurance**	Net earnings declined 10.1% y/y to KES 638.5Mn, from KES 710.0Mn in H1'24. Performance was weighed down by weaker insurance service result, which dropped to KES 128.2Mn from KES 1.05Bn, reflecting higher service expenses. However, revenue momentum was partly supported by a 53.7% y/y rise in investment return to KES 2.75Bn, cushioning the bottom line. EPS stood at KES 0.23 from 0.30 in H1'24.
18.	**Jubilee Insurance**	H1'25 net profit rose 21.7% y/y to KES 3.06Bn, supported by stronger insurance finance income (+76.1% y/y) and a 15.0% y/y uplift in the insurance services result. While other income dipped 35.3% y/y, overall profitability remained firm, aided by disciplined cost management. EPS improved 20.3% y/y to KES 41.63, highlighting sustained earnings resilience and operational strength.

November 2025 Equities Market Highlights

- On a monthly perspective, market indices registered bearish sentiments with the **Nairobi All Share Index** sliding by **3.8% m/m**, NSE-20 declined **2.1% m/m,** and NSE-10 dropped **3.2% m/m**.

- **Interestingly, equities market turnover rose by 25.8% m/m to KES 14.18 Bn in November 2025 from KES 11.27 Bn in October 2025. On a yearly perspective, turnover expanded by 129.2% from KES 6.19 Bn**. In November, market activity picked up, evidenced by higher turnover levels that remained sustained and grew both month on month and on yearly basis. Despite strong earnings from banking counters, the market did not rally as expected, which we attribute to profit taking. We believe investors will remain active and will continue positioning themselves ahead of the full year earnings season as we move toward 2026. ***The current pullback presents an opportunity for investors to accumulate positions in select counters that are still trading at a discount and offer capital gain potential.***
