AIB-AXYS February 2026 Stock Recommendations

January 2026 Highlights

- **Kenya Pipeline Company – Initial Public Offer (IPO) - The Government of Kenya announced the proposed IPO of Kenya Pipeline Company, seeking to offload 11.81 Bn ordinary shares at an offer price of KES 9.00 per share, implying a total transaction value of KES 106.31 Bn and an equity valuation of KES 163.56 Bn for the company.** At the offer price, KPC is valued at an implied EV/EBITDA multiple of 8.1x, based on earnings for the 12-month period ended 30th June 2025, with EPS of KES 0.41 (post share split). Proceeds from the IPO are earmarked for infrastructure development, particularly within energy, roads, water and irrigation, and airports, aligning with the government's broader infrastructure financing strategy.
- The offer structure includes allocations to Kenyan retail investors, Kenyan institutional investors, and EAC investors, supporting broad-based participation. The IPO represents a significant step in reviving Kenya's privatization agenda while expanding investment opportunities within the energy and infrastructure segment of the NSE. *See our perspective pre the IPO (here) and post IPO announcement (here)*
- **NCBA Group PLC Proposed Partial Pro Rata Acquisition by Nedbank Group Limited – Nedbank Group Limited announced a proposed partial pro rata offer to acquire approximately 66.0% of NCBA Group's issued share capital, through a strategic transaction aimed at securing effective control while maintaining public shareholding on the NSE.**
- Upon completion, Nedbank is expected to hold approximately **66.0%** of NCBA, with the remaining **34.0%** retained by public shareholders. Management indicated that the transaction is intended to enhance NCBA's capital position, product offering, and technical capabilities, while preserving domestic ownership and operational continuity
- Shareholders electing to receive Nedbank shares stand to realize additional long-term value beyond the immediate transaction consideration. Nedbank operates a more diversified pan-African banking franchise, trades at stronger valuation multiples, and has a more consistent and attractive dividend policy relative to NCBA. Investors rolling into Nedbank equity therefore gain exposure to improved dividend stability and potential capital appreciation, particularly as Nedbank executes its broader African growth strategy. *We shared our perspective on this transaction (here)*
- **East African Breweries PLC Strong H1 FY2025 Performance & Interim Dividend –** EABL posted a strong half-year result for the period ended December 2025, with profit after tax rising 38.0% to KES 11.16 Bn, supported by an 11.0% increase in net revenue to KES 75.50 Bn. Notably, net finance cost softened to KES 2.17 Bn from KES 3.44 Bn, attributable to a decline in total debt. The robust earnings enabled the declaration of **an interim dividend of KES 4.00** per share.
- **January Inflation -** January's inflation eased slightly to 4.4% from 4.5% in December. The price increase was primarily driven by higher costs in Food and Non-Alcoholic Beverages (7.3%), Transport (4.8%), and Housing, Water, Electricity, Gas & Other Fuels (2.2%). Together, these divisions account for over 57.0% of the CPI basket and therefore remain the key drivers of overall inflation trends. On a month-on-month basis, the CPI rose by 0.6%, from 148.02 in December to 148.96 in January, with core inflation increasing to 2.2% while non-core inflation moderated to 10.3%.

Table 1: Summary of Latest Net Earnings Results

	Company	Comment
1.	**ABSA Bank**	Q3'25 posted a 15.1% y/y rise in PAT to KES 16.92Bn, supported by sharply lower impairments, cost discipline, and stronger non-interest income. NII softened on reduced loan margins and a smaller loan book, though increased allocation to government securities cushioned performance. Asset quality improved with the NPL ratio easing to 12.6%, while a resilient funding base and diversified fee income helped sustain earnings momentum.
2.	**Co-operative Bank**	Q3'25 posted a 12.3% y/y rise in net earnings to KES 21.56Bn, supported by strong NII growth (+22.8% y/y) driven by an expanding loan book and lower interest expenses. Provisions eased 31.9% y/y, lifting profitability, while the bank declared its first-ever interim dividend of KES 1.0, signaling strengthened shareholder value creation.
3.	**Diamond Trust Bank**	Q3'25 posted a 12.3% y/y rise in PAT to KES 8.36Bn, supported by strong NII growth (+17.9% y/y) and a 7.8% expansion in the loan book. Non-funded income fell 5.9% y/y on softer FX and lower fees, though transactional flows remained resilient. Operating income rose 10.5% y/y, with cost discipline maintained despite higher provisions as NPLs edged up. A solid funding base, reflected in 15.5% y/y growth in deposits, and strengthened capital buffers underpinned balance sheet resilience.
4.	**E.A Breweries Limited**	Net earnings rose 38.0% y/y to KES 11.20 Bn, driven by 11.0% revenue growth and 8.0% volume expansion, supported by favourable excise adjustments and cost efficiencies. Strong regional performance, particularly Tanzania and Uganda, underpinned earnings. The Board declared an interim dividend of KES 4.00 per share.
5.	**E.A Portland Cement**	Net earnings improved to a profit of KES 35.1Mn from a loss of KES 720.7Mn. This return to profitability was anchored on improving sales volume driven by strategic pricing. Additionally, improved plant utilization helped minimize operational costs, improving retained earnings in the period.
6.	**Equity Group**	Q3'25 posted a 32.2% y/y rise in PAT to KES 54.1Bn, driven by a 16.1% increase in net interest income and sustained cost discipline. This offset modest growth in non-interest income (+2.5%), delivering strong operating leverage. Regional subsidiaries remained key profit drivers, contributing over 40% of Group PAT, with continued momentum in DRC, Uganda, and Tanzania. Loans expanded 7.5% y/y versus deposits up 2.2%, pushing the loan-to-deposit ratio to 63.9%, reflecting a more active lending stance and reinforcing the Group's balance sheet resilience and profitability.
7.	**I&M Group**	Q3'25 results reflected solid balance sheet growth, resilient earnings, and strengthened capital and liquidity buffers. Loan book expansion and steady deposit growth supported funding stability, while asset quality remained stable with improved provision coverage. Earnings momentum was reinforced by diversified income streams and continued positive contribution from regional subsidiaries
8.	**Kapchorua Tea**	Net earnings plunged by 54.6% y/y to KES 181.18Mn from KES 399.36Mn. The decline was driven by persistent oversupply in the global tea market, which continued to suppress demand and prices.
9.	**KCB Group**	PAT in Q3'2025 rose 3.4% y/y to KES 47.32Bn, supported by 12.4% growth in NII as funding costs eased. The loan book expanded 8.2% y/y, while non-funded income remained soft on weaker FX trading. NPLs rose to KES 222.07Bn, though stronger provisioning improved coverage. Overall performance was anchored by subsidiary resilience and a gradually recovering credit environment.
10.	**KPLC**	KPLC maintained its recovery into FY'25/26, supported by higher electricity sales and improved operational efficiency. For the half-year ended December 2025, the company posted profit before tax of KES 14.83 Bn with revenue up 6.9% y/y to KES 114.90 Bn, driven by 10.5% growth in unit sales. Lower finance costs (-25.0%) following reduced borrowings supported earnings, while the Board declared an interim dividend of KES 0.30 per share, a 50.0% increase,

	Company	Comment
11.	**NCBA Group**	Net earnings grew 8.5% y/y to KES 16.38Bn in Q3'25, supported by strong NII growth (+27.4% y/y) as funding costs fell sharply in a softer rate environment. Loan and deposit contraction weighed on interest income, but asset quality improved, with gross NPLs down 6.0% y/y. Non-funded income was broadly stable, supported by solid digital lending fees despite weaker FX trading.
12.	**Safaricom**	Safaricom Group delivered a solid HY26 performance, with net income surging 52.1% y/y to KES 42.80Bn, driven by a 11.1% rise in service revenue to KES 199.92Bn and robust EBITDA growth of 34.9% to KES 101.31Bn. EBIT rose 54.5% to KES 65.22Bn, reflecting improved efficiency and cost optimization, while the customer base expanded 19.7% to 63.20Mn. Despite higher Capex (+72.1%), the Group maintained healthy liquidity and operational momentum, underscoring strong execution across key business segments
13.	**Stanbic Bank**	H1'25 Net earnings plunged by 9.2% y/y to KES 6.54 Bn weighed down by a 5.8% drop in net interest income to KES 11.83Bn as loans and advances contracted 14.6% y/y. Margins were, however, supported by a modest 0.9% growth in non-funded income to KES 7.62Bn. Notably, total operating expenses surged by 15.4%y/y gnawing into the margins. The Board of Directors recommended an interim dividend of KES 3.80 per share.
14.	**Standard Chartered Bank Kenya**	Q3'25 PAT fell 38.2% y/y to KES 9.79Bn, driven by softer revenues and a one-off KES 2.7Bn staff cost charge following a Supreme Court ruling. Core banking activity slowed amid weaker loan demand and reduced transaction volumes, while non-funded income was hit by a sharp drop in FX trading due to a stable shilling. On the positive side, asset quality improved, with gross NPLs easing to KES 9.13Bn and provisions declining.
15.	**Williamson Tea**	Net earnings declined to a loss of KES 166.44Mn from a profit of KES 529.95Mn. The business recorded a KES 392.22Mn loss from operations before tax which we believe was underpinned by oversupply in the global tea market, which pressured prices and demand.
16.	**Liberty Kenya Holdings**	H1'25 net earnings fell 58.9% y/y to KES 260Mn, down from KES 632Mn in H1'24, weighed by a weaker insurance service result (KES 225Mn vs. KES 577Mn) and higher net insurance finance expenses (-11.8% y/y to KES 1.25Bn). Investment income rose modestly 4.6% y/y to KES 2.08Bn, but was insufficient to offset muted insurance operations. EPS declined to KES 0.43 from 1.16, reflecting sustained earnings pressure.
17.	**CIC Insurance**	Net earnings declined 10.1% y/y to KES 638.5Mn, from KES 710.0Mn in H1'24. Performance was weighed down by weaker insurance service result, which dropped to KES 128.2Mn from KES 1.05Bn, reflecting higher service expenses. However, revenue momentum was partly supported by a 53.7% y/y rise in investment return to KES 2.75Bn, cushioning the bottom line. EPS stood at KES 0.23 from 0.30 in H1'24.
18.	**Jubilee Insurance**	H1'25 net profit rose 21.7% y/y to KES 3.06Bn, supported by stronger insurance finance income (+76.1% y/y) and a 15.0% y/y uplift in the insurance services result. While other income dipped 35.3% y/y, overall profitability remained firm, aided by disciplined cost management. EPS improved 20.3% y/y to KES 41.63, highlighting sustained earnings resilience and operational strength.

AIB-AXYS Africa *Shari'ah Equities* Portfolio Recommendation

Stock	Strengths	Risks	Recommendation
Williamson Tea Current Price: KES 140.75 Target Price: KES 159.00 Upside: 13.0%	• Growing demand for diverse tea blends offer new growth frontiers. • Large disparity between prevailing market price and book value presents ample room for long-term price discovery. • Progressive dividend policy	• Escalation of geopolitical tensions risk disrupting key export market destinations. • Strengthening shilling presents downside risks for offshore sales.	*HOLD*
Kapchorua Tea Current Price: KES 232.50 Target Price: KES 260.50 Upside: 12.0%	• Kapchorua Tea reported a significant rebound in net profit to KES 95.18 Mn from KES 18.23 Mn, driven by improved operations and fair value gains in biological assets. • Progressive dividend policy.	• Tea exports are sensitive to global supply and demand pressures, which can compress realizations and margins. • Despite the profit turnaround, turnover declined year-on-year as tea prices and production fluctuate, which can impact top-line stability.	*BUY*
KenGen Plc Current Price: KES 9.56 Target Price: KES 11.40 Upside: 19.2%	• KenGen's generation mix is heavily weighted toward geothermal and other renewables, providing relatively low and stable generation costs. • Power Purchase Agreements with Kenya Power underpin predictable revenues, supporting earnings stability and long-term investment planning.	• Variability in rainfall affects hydro generation, which can pressure output and necessitate higher-cost thermal alternatives in dry periods.	*BUY*
KPLC Current Price: KES 15.65 Target Price: KES 17.27 Upside: 10.4%	• KPLC delivered robust H1 FY2025/26 performance, with profit before tax of KES 14.83 Bn and revenue up 6.9% y/y to KES 114.90 Bn, supported by higher electricity sales. • The Board declared an interim dividend of KES 0.30 per share, representing a 50.0% increase, signaling improved cash flow strength.	• Earnings remain sensitive to regulatory decisions on tariffs and cost pass-through mechanisms, which may lag cost movements and affect near-term profitability.	*BUY*
Safaricom Plc Current Price: KES 32.05 Target Price: KES 34.30 Upside: 7.0%	• Safaricom declared an interim dividend of KES 0.85 per share for the year ending 31 March 2026, reflecting resilient free cash flow and confidence in earnings stability. • Mobile data revenue overtook voice for the first time, and M-Pesa revenue continues to grow substantially.	• Safaricom's Ethiopian business still reports losses and faces currency, regulatory, and competitive headwind. • Lengthened break-even projections in the Ethiopia unit.	*HOLD*
