MACROECONOMIC NEWS

Currency

The Kenya shilling lost ground against the greenback this past week depreciating by **0.31**% to trade at **109.53**. The CBK's usable forex reserves currently stands at **USD 9,189 million** (**5.62** months of import cover) as at August 19th, a **1.15%** decrease from **USD 9,296 million (5.68** months of import cover) as at August 12th.

Inflation

Inflation in July, Headline inflation increased to **6.44**% from **6.32**% in June. The CPI increased by **0.20**% from **115.11** in June to **115.34** in July. Meanwhile, the food and alcoholic beverages index decreased by **0.46**% due to the decrease in prices of select food items. Headline inflation is likely to increase marginally on the back of higher food and fuel prices. Fuel prices are expected to edge higher due to the increase in global economic activity which has exerted upward pressure on global oil demand.

GDP growth

Growth receded to **-1.1%** in 3Q20 from **5.8%** in the corresponding period of 2019. Economic performance remained depressed due to the crisis caused by the pandemic. However, an improvement was observed compared to 2Q20. The quarterly improvement was majorly supported by growth in the agricultural sector that recorded **6.3%** growth compared to **5.0%** in 2019 and growth in construction by **16.2%** versus **6.6%** in 2019. Manufacturing, Electricity and Transportation sectors each recorded **3.2%**, **4.7%** and **9.9%** growth respectively.
