AIB-AXYS June 2026 Stock Recommendations

May 2026 Highlights

- **Two Rivers International Finance and Innovation Centre (TRIFIC) opens USD Green I-REIT–** The offer opened on 13 May and seeks to raise USD 29.83 Mn. TRIFIC USD is targeting a net dividend yield of 8.0% per annum (equivalent to 8.4% on a pre-tax basis). The REIT targets a total return of 10.0%, comprising an 8.0% dividend yield and 2.0% capital appreciation, supported by a contractual annual rent escalation of 3.5%. The initial NAV per unit is USD 1.00, with a minimum investment of 1,000 units. For more information, please refer to our note (here).
- **Q1 Banking sector earnings season –** Listed banks released their earnings for the first three months of the year. Key takeaways included improved profitability, chiefly driven by margin preservation and higher loan volumes, as well as continued balance sheet expansion. Most lenders reported growth in both loan disbursements and customer deposits. Additionally, asset quality improved across the sector, with most banks reporting a lower stock of non-performing loans (NPLs). This resulted in reduced loan loss provisions, which in turn supported stronger profitability. Equity Group Holdings, following its gangbuster full-year performance, maintained its earnings momentum in 2026, reporting a 24.1% y/y increase in net earnings to KES 19.05 Bn, the highest in the industry. On the other hand, Standard Chartered and ABSA were the only top-tier banks to report a decline in profitability. Nevertheless, all was not doom and gloom, as both banks recorded improvements in asset quality.
- **Corporate Bonds –** The results of the Kenya Mortgage Refinance Company (KMRC) and I&M Bank corporate bond issuances were released. KMRC's issuance achieved a subscription rate of 312.8%, successfully raising its target amount of KES 3.00 Bn after receiving applications worth KES 9.38 Bn. The bond was subsequently listed on the Fixed Income Securities Market (FISM) on 25 May 2026. Similarly, I&M Bank's debut corporate bond issuance was highly successful. The offer, which sought to raise KES 10.00 Bn, attracted applications worth KES 23.23 Bn, translating to a subscription rate of 232.3%. The strong demand triggered the green shoe option, which absorbed an additional KES 3.00 Bn, bringing the total amount raised to KES 13.00 Bn. The bond was listed on 21 May 2026.
- **Cable Experts Limited announced a proposed indirect acquisition of 68.37% of East African Cables -** Cable Experts Limited announced that it had entered into a Share Purchase Agreement (SPA) to acquire the entire 68.37% stake in East African Cables from TransCentury PLC, which is currently under receivership. Following the acquisition, CEL does not intend to make a mandatory takeover offer for the remaining shares of East African Cables and will instead seek an exemption from the Mandatory Takeover provisions.
- **May inflation flares up:** May inflation rose to 6.7% from 5.6% in April, primarily driven by a sharp increase in fuel prices during the May/June pricing cycle. As anticipated, fuel costs remained elevated due to supply disruptions stemming from the closure of the Strait of Hormuz. Core inflation increased to 3.2% from 2.8% in April, while non-core inflation accelerated sharply to 16.0% from 13.4%, underscoring the growing contribution of food and energy-related shocks to headline inflation. The monetary policy outlook has become increasingly complicated by geopolitical developments, prompting policymakers to adopt a wait-and-see approach as they monitor potential positive developments in the Middle East. Nevertheless, it is worth noting that both global and local equity markets have gradually shaken off geopolitical concerns, suggesting that investors are becoming more optimistic about the medium-term outlook.

Table 1: Summary of Latest Net Earnings Results

	Company	Comment
1.	**ABSA Bank**	ABSA Q1'26 earnings came under pressure, with PAT declining 13.9% y/y to KES 5.31Bn as lower interest rates compressed lending yields and weighed on revenue generation. Net interest income fell 7.9% y/y to KES 10.37Bn while non-funded income declined 5.2% y/y to KES 4.28Bn, largely due to weaker foreign exchange trading income and lower loan-related fees. Despite the earnings slowdown, the balance sheet remained resilient, with total assets expanding 9.8% y/y to KES 571.30Bn, supported by a 23.4% increase in investment securities.
2.	**Co-operative Bank**	Q1'26 earnings grew strongly, with PAT rising 21.3% y/y to KES 7.60Bn, supported by double-digit growth across both funded and non-funded income streams. Balance sheet growth remained healthy, with loans and advances rising 13.6% y/y to KES 436.76Bn and customer deposits increasing 16.6% y/y to KES 612.22Bn.
3.	**Diamond Trust Bank**	Q1'26 PAT increased 7.7% y/y to KES 3.48Bn, supported by strong growth in net interest income and continued balance sheet expansion. 5.	**E.A Portland Cement**	Net earnings improved to a profit of KES 35.10Mn from a loss of KES 720.7Mn. This return to profitability was anchored on improving sales volume driven by strategic pricing. Additionally, improved plant utilization helped minimize operational costs, improving retained earnings in the period.
6.	**Equity Group**	Equity Group Q1'26 PAT accelerated 24.1% y/y to KES 19.05Bn, driven by lower funding costs, strong revenue growth and increasing contributions from regional subsidiaries. 7.	**I&M Group**	The Group's Q1'26 PAT (pre-NCI) rose 19.4% y/y to KES 5.04Bn, supported by strong net interest income growth and continued improvement in asset quality. 8.	**Kapchorua Tea**	Net earnings plunged by 54.6% y/y to KES 181.18Mn from KES 399.36Mn. The decline was driven by persistent oversupply in the global tea market, which continued to suppress demand and prices.

Table 1: Summary of Latest Net Earnings Results

	Company	Comment
11.	**NCBA Group**	Q1'26 PAT increased 8.8% y/y to KES 5.96Bn, supported by a robust 22.0% y/y growth in net interest income to KES 12.17Bn following significant repricing of deposits in a lower interest rate environment. Non-interest income grew 6.3% y/y to KES 7.83Bn, benefiting from stronger loan-related fees and a recovery in FX trading income. The balance sheet expanded steadily, with total assets increasing 13.0% y/y to KES 741.12Bn and the loan book rising 13.0% y/y to KES 417.21Bn. While impairments rose sharply by 56.2% y/y, asset quality remained relatively stable with the NPL ratio improving to 11.6% from 12.6% due to faster loan growth and improved recoveries.
12.	**Safaricom**	FY26 delivered a strong earnings recovery, with Group net income rising 67.3% y/y to KES 99.7Bn, supported by double-digit growth across connectivity, M-PESA and fixed broadband businesses, alongside a significant reduction in Ethiopia start-up losses. Service revenue increased 11.1% y/y to KES 414.1Bn, while EBITDA grew 35.4% y/y to KES 220.5Bn, reflecting strong operating leverage and improved business scale. M-PESA remained the key growth engine, with revenue rising 13.4% y/y to KES 182.7Bn, supported by higher transaction volumes, merchant acquisition and expanding financial services offerings.
13.	**Stanbic Bank**	Q1'26 PAT increased 5.5% y/y to KES 3.52Bn, supported by a strong 11.7% y/y growth in net interest income to KES 7.57Bn, driven by lower funding costs and increased income from government securities. Total operating income rose 4.3% y/y to KES 9.95Bn, offsetting a decline in non-funded income, which fell 13.7% y/y due to weaker foreign exchange trading income and lower other operating income. Asset quality improved significantly, with loan loss provisions declining 59.1% y/y to KES 350.14Mn, while customer deposits expanded 21.7% y/y to KES 411.00Bn, supporting balance sheet growth and liquidity.
14.	**Standard Chartered Bank Kenya**	Q1'26 earnings came under pressure, with PAT declining 26.3% y/y to KES 3.58Bn as lower interest rates compressed lending margins and weighed on core banking revenues. Net interest income declined 23.3% y/y to KES 6.29Bn, though this was partly offset by a 10.3% y/y increase in non-funded income to KES 3.74Bn, supported by stronger fee income and other non-lending revenue streams. Despite the earnings slowdown, the balance sheet remained resilient, with loans and advances growing 20.0% y/y to KES 165.38Bn and customer deposits increasing 12.6% y/y to KES 321.15Bn.
15.	**Williamson Tea**	Net earnings declined to a loss of KES 166.44Mn from a profit of KES 529.95Mn. The business recorded a KES 392.22Mn loss from operations before tax which we believe was underpinned by oversupply in the global tea market, which pressured prices and demand.
16.	**Liberty Kenya Holdings**	Posted a 65.3% y/y decline in total Group PAT to KES 0.49Bn in FY'25, as insurance service expenses rose 19.1%, significantly outpacing the 8.5% growth in insurance revenue. Underwriting margins were squeezed by elevated claims in motor and medical sectors, while net investment income fell 17.8% due to declining interest rates. The disposal of the Tanzanian subsidiary resulted in an accounting loss, impacting discontinued operations. Despite the earnings contraction, a solid capital base allowed the board to maintain a dividend of KES 0.50.
17.	**CIC Insurance**	FY'25 posted a decline in Group PAT to KES 0.51Bn (down from KES 2.85Bn), as insurance service expenses surged to KES 28.2Bn, resulting in a negative insurance service result. Insurance revenue grew 11.8% to KES 29.46Bn, supported by strong asset management fee growth (+40.7%). The group balance sheet expanded 19.1% to KES 73.75Bn, driven by a KES 11.05Bn increase in financial investment assets. A resilient capital base and diversified income streams underpinned the decision to maintain the dividend at KES 0.13.
18.	**Jubilee Insurance**	FY'25 posted a 17.6% y/y rise in PAT to KES 5.55Bn, supported by strong insurance revenue growth (+16.5% y/y to KES 29.92Bn). AIB-AXYS Africa *Shari'ah Equities* Portfolio Recommendation

Stock	Strengths	Risks	Recommendation
Williamson Tea Current Price: KES 133.50 Target Price: KES 143.05 Upside: 7.2%	• Growing demand for diverse tea blends offer new growth frontiers. • Large disparity between prevailing market price and book value presents ample room for long-term price discovery. • Progressive dividend policy	• Escalation of geopolitical tensions risk disrupting key export market destinations. • Strengthening shilling presents downside risks for offshore sales.	*HOLD*
Kapchorua Tea Current Price: KES 276.50 Target Price: KES 271.35 Downside: 1.2%	• Kapchorua Tea reported a significant rebound in net profit to KES 95.18 Mn from KES 18.23 Mn, driven by improved operations and fair value gains in biological assets. • Progressive dividend policy.	• Tea exports are sensitive to global supply and demand pressures, which can compress realizations and margins. • Despite the profit turnaround, turnover declined year-on-year as tea prices and production fluctuate, which can impact top-line stability.	*HOLD*
KenGen Plc Current Price: KES 9.10 Target Price: KES 11.40 Upside: 25.3%	• KenGen's generation mix is heavily weighted toward geothermal and other renewables, providing relatively low and stable generation costs. • Power Purchase Agreements with Kenya Power underpin predictable revenues, supporting earnings stability and long-term investment planning.	• Variability in rainfall affects hydro generation, which can pressure output and necessitate higher-cost thermal alternatives in dry periods.	*BUY*
KPLC Current Price: KES 15.40 Target Price: KES 18.79 Upside: 22.0%	• KPLC delivered robust H1 FY2025/26 performance, with profit before tax of KES 14.83 Bn and revenue up 6.9% y/y to KES 114.90 Bn, supported by higher electricity sales. • The Board declared an interim dividend of KES 0.30 per share, representing a 50.0% increase, signaling improved cash flow strength.	• Earnings remain sensitive to regulatory decisions on tariffs and cost pass-through mechanisms, which may lag cost movements and affect near-term profitability.	*BUY*
Sasini Plc Current Price: KES 23.50 Target Price: KES 23.50 Upside: 0.0%	• Coffee operations remain a key earnings stabilizer, benefiting from favorable global coffee prices and helping offset weakness within the tea segment.	• Tea market headwinds continue to weigh on profitability, with lower auction prices and drought-related volume declines contributing to a wider net loss of KES 170.80Mn.	*SELL*
