AIB-AXYS Weekly Equities Note

22nd June 2026

Family Bank Listing

- Family Bank Limited will begin trading on the Nairobi Securities Exchange (NSE) tomorrow, 23rd June 2026. Our valuation points to a significant discount relative to the introduction price of KES 18.00 per share. Using both a market-based approach and intrinsic valuation, we arrive at a fair value of KES 27.67 per share, implying an upside potential of 53.7%. When combined with the trailing dividend yield of 6.7%, the stock offers a potential total return of 60.4%.
- Family Bank's listing on the Main Market Segment is expected to broaden the Company's shareholder base, enhance liquidity, and improve price discovery as shares begin trading in the secondary market. Our detailed house view of the transaction can be found (here).

SSA Equity Market Performance

Country	w/w (%)	YTD 2026 (%)

AIB-AXYS Weekly Fixed Income Note

22nd June 2026

Key Highlights

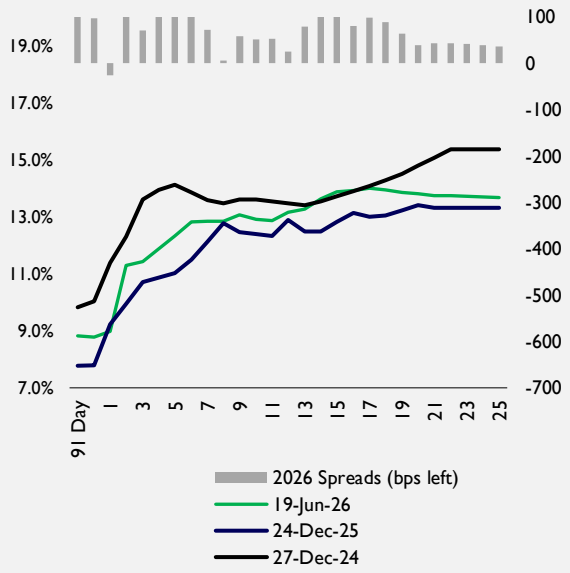

- **Spot market Treasury bills remained heavily oversubscribed, with the overall subscription rate rising to 204.1% from 163.9%** recorded the previous week, pointing to a sustained investor appetite for government securities. Demand remained overwhelmingly concentrated in the 91-day paper, which attracted KES 36.85Bn in bids against KES 4.00Bn offered. Meanwhile, the 182-day and 364-day papers remained undersubscribed, receiving KES 3.22Bn and KES 8.92Bn in bids, respectively, against offers of KES 10.00Bn each. The continued preference for shorter-tenor securities highlights investors' bias towards liquidity and flexibility as they assess the future interest rate environment.
- The 91-day Treasury bill yield increased by 11.39 bps to 8.82%. Similarly, the 182-day and 364-day papers rose by 17.26 bps and 10.31 bps to 8.77% and 8.97%, respectively.
- **In the results from the reopened FXD1/2018/020 and FXD1/2021/025, the government registered a performance rate of 129.38%** with total bids received amounting to KES 77.63 Bn against a target of KES 60.00 Bn. The total amount of accepted bids was KES 42.57 Bn. The weighted average rate of accepted bids for **FXD1/2018/020** was 13.9885% (slightly above our competitive bidding range recommendation) and **FXD1/2021/025** was 14.8636% (well in line with our competitive bidding range recommendation), while the coupon rates for the bonds were 13.2000% and 13.9240%, respectively.
- **In the results of the Treasury Bond Tap Sale for FXD1/2020/015 and FXD1/2018/025, the government registered a performance rate of 58.4%**, with total bids received amounting to KES 8.76 Bn against a target of KES 15.00 Bn. The total amount accepted stood at KES 8.45 Bn. The allocated average rates for accepted bids settled at 13.3120% and 14.2304%, respectively, compared to coupon rates of 12.7560% and 13.4000%.
- **Across the secondary bond market, the value of bonds traded declined by 21.6% w/w to KES 46.08 Bn** from **KES 58.74 Bn** recorded a week prior. The NSE Bond Index witnessed an increase of 57 bps w/w to 1,129.01 points, driven largely by a decrease in the 30-year benchmark yields. The 2-year yield rose the most by 40.03 bps w/w, while the 30-year yield eased the most by 74.99 bps w/w.
- **Yields on Kenya's Eurobond papers decreased by an average of 51.38 bps w/w,** supported by improved investor sentiment towards frontier market assets and growing confidence in Kenya's macroeconomic fundamentals. The decline in yields points to a moderation in perceived sovereign risk despite lingering geopolitical tensions in the Middle East.

Macroeconomic Developments

Exchange Rate

- The Kenya Shilling appreciated marginally against the USD, closing the week at KES 129.47 from KES 129.66 recorded the previous week, translating to a w/w appreciation of 0.1%. Consequently, the Shilling's YTD depreciation against the USD stood at 0.3%.
- Official forex reserves decreased by **0.7% w/w** to **USD 13,149 Mn** from **USD 13,240 Mn**. The current reserves now offer about **5.6 Months** of import cover, meeting the CBK's statutory requirement of 4 months. The reserves also met the EAC's convergence requirement of 4.5 months of import cover.

Liquidity

- The Kenya Shilling Overnight Interbank Average (KESONIA) closed the week at 8.75%. We expect KESONIA to remain broadly aligned with the CBR.

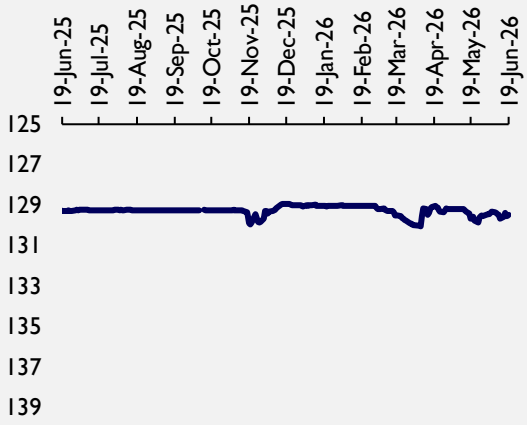

Monetary Policy Committee (MPC) Decision

- The Monetary Policy Committee (MPC) maintained the Central Bank Rate (CBR) at 8.75%. The decision was guided by expectations that Kenya's overall inflation is projected to remain within the target range over the near term, provided tensions in the Middle East ease. This outlook is supported by appropriate monetary policy measures, government interventions such as fuel subsidies and temporary VAT reductions, expected stability in food prices driven by favourable weather conditions, plus a stable exchange rate.
- Other key takeaways from the meeting: i) Banking asset quality improved to 15.3% in May from 15.6% in February, and ii) lending to the private sector improved to 9.3% in May 2026.

EPRA Pump Price Review– June 2026

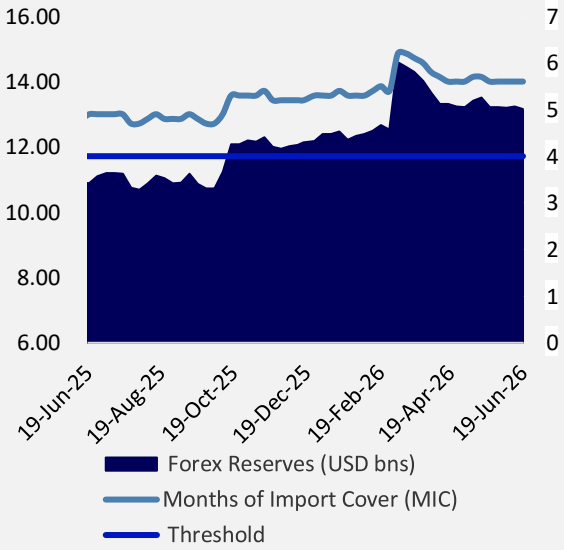

- The Energy & Petroleum Regulatory Authority (EPRA) released the maximum retail pump prices for the period 15th June 2026 to 14th July 2026, reflecting a mixed adjustment in domestic fuel prices amid heightened volatility in global energy markets.
- In Nairobi, Super Petrol prices declined marginally by KES 0.22 per litre to KES 214.03, while Diesel prices fell by KES 10.00 per litre to KES 232.86 per litre. Conversely, Kerosene prices increased by KES 8.38 per litre to KES 202.61 per litre, reflecting divergent movements in international product prices and government stabilization measures.
- The latest review comes against a backdrop of escalating geopolitical tensions in the Middle East, particularly concerns over potential disruptions to global oil supply routes. While government intervention helped cushion consumers from a sharper increase in pump prices, elevated international oil prices and higher landed fuel costs continue to exert upward pressure on domestic energy costs.
- Looking ahead, pump prices remain exposed to significant upside risks should geopolitical tensions persist or escalate further. Any sustained disruption to global crude oil supply chains could translate into higher landed costs and renewed pressure on retail fuel prices in subsequent pricing cycles, with potential spillover effects on transport costs and inflation.
