The TRIFIC I-REIT achieved a subscription rate of 103.3%, raising USD 30,815,000 against the USD 29,832,000 on offer, surpassing the USD 20,500,000 threshold required for a successful offer. The promoter took up 7,458,000 new units in exchange for the transfer of the initial asset (TRIFIC North Tower).
- **ABSA Group Limited's intention to acquire additional shares of ABSA Kenya –** ABSA Group announced its intention to acquire an additional 895,989,600 ordinary shares in the issued share capital of ABSA Bank Kenya PLC, representing 16.5%, through a tender offer made to all other shareholders of ABSA Kenya. These additional shares would increase ABSA Group's ownership to 85.0% from the current 68.5%. The tender offer price is KES 34.50 per share, representing an 8.6% premium to our latest valuation of KES 31.78 per share for ABSA. Other key details of the tender offer include: the offer will be conducted on a "willing buyer, willing seller" basis; it opens on 30th June and will run until 11th August 2026. Notably, any shareholder who tenders 10,000 ordinary shares or fewer in the tender offer will receive guaranteed acceptance of all shares tendered. In cases where more than 10,000 shares are tendered, the first 10,000 shares will be accepted in full, while the balance will constitute the shareholder's excess tender and will be handled on a pro rata basis.
- **Kapchorua Tea Kenya and William Tea Kenya full year results –** Williamson Tea Kenya's full-year results marked a turnaround, with the company posting net earnings of KES 120.80 Mn compared to a loss of KES 166.43 Mn. - **June Inflation cools to 6.4% -** June inflation eased to 6.4% from 6.7% in May, in line with our in-house projections. Core inflation eased to 3.1% from 3.2%, while non-core inflation eased to 15.1% from 16.0%. Notably, transport and food and non-alcoholic beverages inflation rose by 8.6% y/y and 16.1% y/y, respectively. We opine that inflation will continue to ease in the near term on the back of the reopening of the Strait of Hormuz, which has alleviated concerns over disruptions to global oil supply.
